From: California Department of Transportation

District 4
111 Grand Avenue
Oakland, CA 94612

State Clearinghouse Number: 2015082026

Project Description: The City of Palo Alto and the California Department of Transportation proposes to replace the Newell Road Bridge and roadway approaches across San Francisquito Creek. Four build alternatives were under consideration; Build Alternative 2 is the preferred alternative. The design features include removal of the existing bridge; construction of new approaches, a two-standard-lane bridge, and accommodation for bicycle and pedestrian travel (including sidewalk and sharrows); potential addition and reconfiguration of utilities including street lighting; modification to street signage; addition of retaining walls; and bank stabilization measures in the portion of San Francisquito Creek disturbed by the construction.

This is to advise you that a finding of No Significant Impact (FONSI) has been made for this project by the California Department of Transportation as assigned by the Federal Highway Administration pursuant to 23 USC 327. A copy of the FONSI and the attached Environmental Assessment can be obtained from the California Department of Transportation office located at the above address.
